

CHINMAY GAIKWAD

Pune, India | +91-9850119406 | chinmaygaikwad08@gmail.com | linkedin.com/in/chinmay-gaikwad | github.com/Sypher08

PROFESSIONAL SUMMARY

Final-year Computer Engineering student (2026, CGPA 8.10/10) with a solid foundation in full-stack web development, object-oriented programming, data structures, and relational databases. Experienced in building end-to-end academic projects using React.js, Node.js, Express.js, and SQL/NoSQL databases, with additional exposure to Python and C#/.NET fundamentals. Comfortable working across the full development lifecycle — from database design and REST API development to responsive front-end interfaces and API testing with Postman. Known for being a fast learner, a dependable team collaborator, and someone who takes ownership of tasks end to end. Seeking an entry-level Software Developer / IT role where I can contribute from day one, keep learning modern tools, and grow into a well-rounded engineer.

EDUCATION

Zeal College of Engineering and Research, Pune	CGPA: 8.10 / 10
B.E. Computer Engineering, 2026	
Shri Shivaji Maratha High School and Jr. College, Pune	64.67%
HSC — Science (2022)	
Dnyanganga English Medium School, Pune	74.20%
SSC (2020)	

TECHNICAL SKILLS

Languages: C#, Python, JavaScript (ES6+), C++, SQL
Web & Frameworks: React.js, Node.js, Express.js, Angular, HTML5, CSS3, Bootstrap 5, .NET Core (basics)
Databases & Tools: MySQL, MongoDB, Microsoft SQL Server, Git/GitHub, VS Code, Postman
Core Concepts: Data Structures & Algorithms, OOP, RDBMS, REST APIs, SDLC, Debugging & Testing
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability

ACADEMIC PROJECTS

Urban Intel Platform | Final Year Project — MERN Stack

- Co-built a smart-city data visualization platform to aggregate and display urban operational metrics.
- Developed a React.js dashboard connected to a Node.js/Express.js REST API, with MongoDB for data storage.
- Collaborated in a team to plan features, divide modules, and integrate front-end and back-end components.

Online Cloud Kitchen Platform | Full-Stack Web Development

- Built a responsive React.js e-commerce app with interactive menus and a structured checkout flow.
- Designed a MySQL relational database for order records and validated data integrity; tested APIs with Postman.
- Handled state management and form validation to ensure a smooth, error-free ordering experience.

Gibberlink AI | Python-based Automation Project

- Built an automation utility that scripts multi-step task execution using Python, paired with a simple JavaScript UI.
- Practiced modular code design and version control workflows using Git/GitHub throughout development.

INTERNSHIPS & PROFESSIONAL TRAINING

Software Engineering Trainee | Zensar Technologies Jan 2025 – Feb 2025

- Completed 60+ hours of training in object-oriented programming, data structures, and relational database optimization.
- Wrote SQL queries using joins and multi-table logic for structured data retrieval.
- Practiced coding standards and problem-solving exercises as part of an industry-oriented training curriculum.

Web Application Development Trainee | Rubicon Foundation Feb 2025 – Mar 2025

- Completed 40+ hours of training in agile workflows, code debugging, and collaborative version control using Git/GitHub.
- Worked with a team on web application tasks, participating in code reviews and iterative feature delivery.

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- 3rd Place — institutional multi-stage Escape Room competition (logical deduction under time pressure).
- Regular participant in institutional coding challenges to build problem-solving speed.
- Active blood donor and volunteer coordinator for campus social responsibility drives.
- Experienced coordinator across multi-person team projects, comfortable owning tasks and meeting deadlines.

ADDITIONAL INFORMATION

Languages Known: English, Hindi, Marathi (fluent in speaking, reading, and writing)

Interests: Chess, swimming, football, and following personal finance & tech trends
